Doc. No	File Date	Document Description
169	06-20-2013	SAN PEDRO RIVER WATERSHED HYDROGRAPHIC SURVEY REPORT <u>SUMMARY</u> : The Special Master gives the United States and the San Carlos Apache Tribe ninety days to submit a proposed stipulation and abstracts of water rights or advise that a settlement agreement will not be executed. If a stipulation is executed by all or some of the objectors, the Arizona Department of Water Resources is directed to review the proposed stipulation and abstracts of water rights. A schedule is set for the consideration of the stipulation and abstracts. <u>CLAIMANT NO</u> : None given. <u>PAGES</u> : 3
170	06-24-2013	MINUTE ENTRY <u>SUMMARY</u> : This is the time set for a telephonic status conference. The Special Master suggests the following alternatives for concluding this case: 1) Continue the stay of the case indefinitely; 2) Give the parties an opportunity to determine if the Tribe and the United States can stipulate to a conditional reserved water right in which there would be a water right granted to the Bureau of Land Management (BLM). The parties would submit abstracts of water rights with the understanding that these are all conditional reserved water rights for the 16 springs, and conditional on the determination, some day, of the southwestern boundary of the Tribe. The Special Master would consider having a review every two years for up to four years to review the status of the boundary issue and any other matter that comes up. During this time, the Court would retain jurisdiction over the case or; 3) Conduct a hearing in which the Special Master or the Court would issue a conditional reserved water right following the hearing assuming the parties agree the Special Master and the Court have the authority to grant a conditional reserved right. <u>CLAIMANT NO</u> : None given. <u>PAGES</u> : 4
