3258 **01-21-2005** **ORDER**

Order Re: State of Arizona's Request for Partial Summary Judgment
SUMMARY: IT IS ORDERED **(1)** Granting the State's motion for hear and brief its motions for partial summary judgment establishing the existence of federal reserved water rights on state trust lands. **(2)** The Special Master shall organize a contested case to hear the State of Arizona's motions for partial summary judgment in accordance with the practices and procedures of the Special Master. **(3)** The Special Master shall submit findings of fact, conclusions of law, and recommendations and set them forth in a report to this Court (the "Special Mater shall include: (a) Whether, and to what extent, does the evidence establish that the United States withdrew land from the public domain and reserved this property as state trust land? (b) If land was withdrawn and reserved, what was the purpose to be served by each reservation? (c) If lands were withdrawn and held in trust, did the United States intend to reserve unappropriated waters to accomplish the purpose of each reservation? (d) Any other issues required to be resolved in connection with addressing the matters listed above. **(5)** In the event the Special Master determines that the State possesses federal reserved water rights, he shall not consider the priority date for any such right, the quantity, if any, of appurtenant unappropriated water or the minimum amount of water necessary to fulfill the federal purpose for each reserved right. The hydrographic survey report prepared for the watershed within which the land related to each right is situated will frame these considerations for final resolution. **(6)** In presiding over the contested case, the Special Master may adopt procedures similar to those used in his consideration of the subflow issues, including methods for effective presentation of expert opinions by sworn declarations. Proceedings before the Special Master may include consideration of discovery issues, including any matters arising under Ariz. R. Civ. P. 26.1 and he shall be fully empowered with all the powers enumerated in Ariz. R. Civ. P. 53, including subsection (c). **(7)** The Special Master shall set an initial meeting to discuss the best method for considering the matters required to be resolved by this order. The time limit set forth in Ariz. R. Civ. P. 53(d) shall not apply to scheduling this initial meeting. At the initial meeting the parties may provide suggestions as to how the Special Master can ensure that hearings and conferences held in a manner that is convenient for the parties in both adjudications. **(8)** Objections and comments to the Special Master's Report may be filled within sixty (60) days after the report is filed with the court. Responses to objections and comments shall be filed within forty-five days (45 days) after objections and comments are due, with any replies to be filed out not later than thirty (30) days after the response due date. Filing times are exclusive of the additional period authorized by Ariz. R. Civ. P. 6(e).
